

## EFFECTIVE IMMEDIATELY

### HOLLEYBROOKE HOA POOL SAFETY AMENDMENT

We have been advised by our pool management company HA POOLS LLC that we must follow their guidelines pertaining to the swimming safety of all, especially the children under the age of 13.

Anyone under the age of 13, or older whom the guard determines is struggling, who wishes to swim at the deep end of the pool will be tested by one of the lifeguards to determine their ability to swim. This test would consist of:

1. Basic swimming skills, comfort in the water, treading the water and returning to the pool edge without assistance.

Should the guard determine the child has the ability and has passed the test, they will receive an arm band that they need to wear each time they come to the pool. This will eliminate the need to be re-tested. (This information will also be noted in the badge system.

**THIS IS FOR THE SAFETY OF ALL.**

The lifeguards have the final decision; they are following the guidelines set forth by the pool management company with the approval of the HHOA.

Thank you for your cooperation. We all want the experience to be fun, BUT also safe!
